

Providing Goods and Services to Disabled People Training

Part III of the Disability Discrimination Act focuses almost entirely on the need for providers of goods and services not to discriminate against disabled people.

This has massive practical implications about the way we do business and the changes we need to make – but it also has the ability to improve your business if handled and marketed properly.

We guide you through the legislation and good practice with a focus on business benefits.

	Dates	Location
Trainer	Martin Austin; Managing Director
